 Utility Right Of Way

The Drake Landing Solar Community is a first for North America. 90% of heating is supplied by solar thermal energy. This beautifully maintained R-2000 home is "built green" to be 30% more efficient than regular homes. An excellent floor plan opens with a bright living room with a gas fireplace. To the rear of the home is a large kitchen, with a corner pantry & a breakfast bar. Beyond lies the enormous dining nook - plenty of space to entertain here! A laundry area & a half bath complete the main floor. Upstairs, you'll find a generous master bedroom with a 4-pc en-suite & walk in closet, two excellent child bedrooms & a family bathroom. The basement is finished to a high standard, with family & recreation areas & a large bedroom with a contemporary 3-pc en-suite. The landscaped rear yard has trees, shrubs, a patio & vinyl fencing. The yard leads to the double detached garage & it's adjacent single carport, that open out to the paved rear lane. COME VIEW THE 3D TOUR NOW - Click the Multimedia Button!
